FULL TIME RVING*

BUILT BY
EXPERIENCE

OVER 90,000 MONTANA FIFTH WHEELS ON THE ROAD TODAY

MONTANA

HIGH COUNTRY

When Cole Davis founded Keystone RV in 1988 his vision was clear. Build a quality RV loaded with features priced thousands less than other RVs on the market. To accomplish his goal, Cole built a strong team, focused on keeping overhead low, and empowered employees closest to the customer to make decisions. Within a few short months after opening the doors, Keystone produced its very first camper. Delivering big on quality, features and value, the public fell in love and a star was born.

As customers appetite skyrocketed, new Keystone models were added to satisfy growing customer demand. Along with this tremendous growth came the need for expanded production. To meet this need, more manufacturing plants were built and staffed. By the beginning of 2000, Keystone was leading the industry in fifth wheel and trailer sales. Today, Keystone RV Company has grown to encompass over 1 million square feet of manufacturing space with facilities in Goshen, Indiana and Pendleton, Oregon. While Keystone is no longer the small "start up" we once were, our mission has remained true to Cole's vision—"Do the job right and make sure we deliver a quality product every time."

MONTANA
LUXURY FIFTH WHEELS

Montana was created in 1998 for the sole purpose of providing a high-quality, luxury fifth wheel at an affordable price. By listening to customers, Montana delivered a fifth wheel to lead the industry in quality, style, innovation and value. Experienced RVers responded to the painstaking details crafted into every square inch of every floor plan as Montana quickly revolutionized the fifth wheel market in the late 90's.

In 2001, Montana finished the year as the #1 selling fifth wheel brand in the United States for the first time and has remained the #1 selling luxury fifth wheel for 16 consecutive years.

Today, Montana continues to lead the industry in creating spacious, highly functional, durable and dependable luxury fifth wheels. Every Montana is crafted with the confidence that comes from 18 years of quality fifth wheel building expertise. We continue to raise both structural standards and customer expectations through our cutting-edge technology and handcrafted skills that put our manufacturing in a class by itself.

The future promises new and exciting developments to enhance the ultimate RVing experience that only a Montana can deliver. Montana's patent pending front cap windshield design is just the latest in a long history of innovation.

With over 90,000 Montana fifth wheels on the road today and the most repeat buyers of any towable brand in the industry, the Montana legacy continues to grow larger and larger year after year.

Display Commander

FINALLY A SYSTEM YOU CAN TRUST.

iN-Command™ by JENSEN® embraces the next generation of controls for your Keystone RV by acting as the central hub of operations and puts you at the helm using your preferred smart device. But how does this all-encompassing system work? What, exactly, does it monitor and control? Let's take a closer look at iN-Command piece by piece.

The Display Commander is your primary point of contact with iN-Command. All of the switches and monitoring panels that have cluttered up interior walls in the past are integrated into this one sleek, touch screen monitor. What really makes the Display Commander stand out, however, is that it can be controlled remotely with a smart device using the free JENSEN iN-Command mobile app. This app performs all of the same functions as the Display Commander, but from the convenience of your mobile device.

TRAVEL WITH CONFIDENCE

"CONSUMERS CHOICE" MOR/RYDE™ PIN BOX

The MOR/Ryde pin box works in a horizontal planar motion (both longitudinally and laterally) to absorb towing shock and effectively diminish the transfer of forces from fifth wheel to truck. Forget about that harsh, jerky chocking action - not to mention the added strain on you!

MOR/RYDE™ CRE 3000 SUSPENSION

The MOR/Ryde™ CRE 3000 Suspension increases dynamic axle travel by up to 3 inches! Increased travel means smoother towing, improved towability and better protection from damaging road shock.

MOR/RYDE™ WET BOLT KIT

Montana also uses the heavy-duty shackle upgrade kit that includes 1/2" shackle plates, wet or greaseable bolts and bronze bushings. This kit provides longer lasting, more durable and better performing components, another "best in class" feature.

G-RANGE TIRES WITH ALL STEEL TIRE CONSTRUCTION

Montana is now standard with Sallun G-Range tires to provide a maximum tire load of 4080 lbs at 110psi. G-range tires have steel belts in the tread and sidewall for less flexing and the lateral ribbed tread provides low rolling resistance for better heat dissipation in all positions.
