Solutions for all your lakeshore product needs!

New Dock & Lift Sales

Glacial Lakes Dock carries Voyager Dock and Beach King Docks & Lifts. With our knowledge and experience, we can help you to design a dock or lift to fit your property, as well as suit all of your wants and needs. We offer roll-in, sectional, and floating docks of all shapes and sizes, and lifts to accommodate the smallest to largest boats, pontoons, and PWC's used on our MN lakes!

Used Dock & Lifts

We take many trade-ins throughout the season. If you're on a tight budget, just don't want, or need new, chances are we might have just what you are looking for.

Barge Service

We own and operate two custom built barges that can haul any dock or lift across the water. This is a great option when your shoreline is inaccessible from the road or if you want make sure your lawn stays pristine! We use the barges to install new product, for seasonal installs and removals, and other over water transportation!

Brands we sell & trust:

voyager
DOCK

BEACH
KING
DOCKS & LIFTS

Seasonal Service

Glacial Lakes Dock installs and removes any brand, style, or size of dock and lift. We have the right equipment and experience to handle any job. We offer competitive pricing, timely service, and expert care of your property. We can provide offsite storage of your lake shore equipment, if you don't have storage space or just don't want to look at it all winter. We are a licensed Lake Service Provider by the MN DNR and the preservation of our local lakes is of utmost importance to us. We can also repair and maintain your existing equipment.
