

TRACKER[®] boats

Fish the Finest![®]

AMERICA'S BEST-SELLING FISHING BOATS
2021 MOD V & DEEP V ALUMINUM BOATS

IT'S MORE THAN A BOAT. IT'S A TRACKER.

More than 40 years ago, Bass Pro Shops® founder Johnny Morris and his dad, John A., had an idea—why not build a better bass boat and sell it as a complete, ready-to-fish package?

Up until that point, anglers had to piecemeal their boats together, picking out and buying each component separately. And thus, in 1978, the first BASS TRACKER® boat, motor and trailer package was introduced in the Bass Pro Shops catalog. And to say it was a hit is an understatement.

More than just a great value, that first BASS TRACKER boat was an exercise in producing a quality-built boat with quality parts. And today, TRACKER Boats continues that legacy throughout our entire line of Mod V, Deep V, Jon and Utility boats!

From bass fishing to walleye angling to bowfishing, club tournaments to family fishing, we offer a tough, versatile and feature-packed model for any use. And regardless which model you choose, you can boat easy knowing you have the backing of an industry leader for years to come.

THE TRACKER PROMISE

THE BEST FACTORY WARRANTY IN ALUMINUM BOATS

At TRACKER® Boats, we go to great lengths to ensure every model is quality crafted with the best materials, processes and components to last you for years to come. We're so confident in the quality, we back every all-welded model with the TRACKER Promise—the best factory warranty in aluminum boats.

- ✔ Limited lifetime structural & deck coverage
- ✔ 5-year non-prorated bow-to-stern coverage
- ✔ 3-year coverage on powdercoat adhesion
- ✔ 3-year warranty on factory-installed trolling motor & fishfinder
- ✔ Provisions for transfer to a second owner

RECOGNIZED FOR EXCELLENCE IN CUSTOMER SATISFACTION

NMMA®

For the EIGHTH consecutive year, TRACKER® Boats has been honored with the Customer Satisfaction Index (CSI) Award for excellence in customer satisfaction from the National Marine Manufacturers Association® (NMMA®).

This recognition reflects thousands of boat owners reporting satisfaction ratings of 90 or higher on a 100-point scale. It's a standing tribute to the dedication our craftspeople, designers and sales consultants have to providing families the best aluminum boats on the water.

LONG-LASTING BEAUTY

ENHANCING ALL THAT BEAUTY ...

*The toughest, most
environmentally-friendly
finish available in
aluminum boats today.*

THE TOUGHEST, BEST-LOOKING FINISH IN ALUMINUM BOATS

When we introduced the DIAMOND COAT™ powdercoat finish in 2014, it was an industry-first. Years later, it's still a WHITE RIVER MARINE GROUP® exclusive feature that provides TRACKER® owners the toughest, best-looking finish in the industry.

So, what exactly goes into making the industry's leading finish?

Well, it starts exactly the same on EVERY TRACKER boat—we run the hull assembly through a five-stage wash. Then, a tag-team of robotic sprayers and craftspeople (to reach the hard-to-get areas) apply the color powder, which binds electrostatically to the bare aluminum. Next, we send the entire thing through a massive curing oven, where the powder becomes liquid and bonds to the aluminum on the molecular level. Then, we apply the clearcoat (Mod V and Deep V models), which adds that lustrous shine and protection from the sun's rays.

For 2021, we've taken this tested and proven method, and made it even better by updating the powder formula. The result is an even harder, yet more flexible, surface that results in less wear and tear and longer-lasting good looks through regular use.

It's not the conventional approach, but it's the best because it's longer-lasting, better looking and more environmentally friendly than traditional methods.

You'll understand when you see these boats in the showroom.

DIAMOND COAT FINISH VS. CONVENTIONAL PAINT

- ✓ **3x harder & 4x thicker**
- ✓ **70% longer-lasting shine**
- ✓ **50% smaller carbon footprint**
- ✓ **5x stronger adhesion to metal**
- ✓ **20x longer-lasting color**
- ✓ **10x more corrosion resistance**

INVESTED IN QUALITY

From the beginning, the team at TRACKER® Boats has always been heavily invested in making sure we're using the latest and greatest processes and technologies to craft top-quality boats.

For starters, we employ Lean Sigma manufacturing strategies, just like leaders in the automotive, medical and manufacturing industries, to decrease product discrepancies, increase efficiencies and, ultimately, reduce costs and waste. This allows us to build better boats for less and pass the savings on to you!

In addition, we use a number of industry-leading technologies to reduce waste and improve quality even further. From laser and plasma cutters to robotic welders, we have invested literally millions of dollars to ensure our Lebanon, MO, manufacturing facility is unlike anything else in the industry. These machines are truly state of the art and produce astounding quality day after day after day after ... well, you get the picture! We use the laser and plasma cutters to turn giant sheets of aluminum into all the different parts of the hull, stinger and transom. And then the robotic welders make sure the transom and stringer—two extremely critical pieces—are consistently put together day in and day out.

BUILT WITH AN UNWAVERING COMMITMENT TO RUGGED DURABILITY AND A PERFECT FIT AND FINISH

New for 2021, all TRACKER Mod V boats feature a two-piece hull, much like our Deep V models have for years.

The pieces are welded together, just like the rest of the boat.

• **ROBOTICALLY-WELDED STRINGER**

The stringer provides the backbone for the boat, so it needs to be as strong as possible. We don't cut corners with it—instead, we use robots to weld it together. The result is a solid substructure that will absorb impacts and distribute shock for years to come.

• **ROBOTICALLY-WELDED TRANSOM**

Like the stringer, the transom provides support and needs to be strong. And like the stringer, we use robotic welders to ensure it'll stand up to the task.

• **ALL-WELDED HULL**

100% welded, 0% riveted. That's the guarantee with every single TRACKER Mod V hull. We further enhance the strength with chine braces and half-round supports. Then, we weld the stringer and transom to the hull itself to form a tough, one-piece structure throughout.

MOD V BOATS BUILT FOR BASS & BEYOND

Mod V stands for Modified V, and it indicates a hull design with a sharp V at the bow that transitions to a flatter surface aft. This helps the boats plane faster and handle well while still being able to take on moderate chop with ease. They're great for small-to-moderate-sized bodies of water due to their ability to get into tight places and traverse skinny water with ease. In addition, TRACKER Mod V boats are designed to provide ALL the features bass and panfish anglers want in their boats. And ALL is not an exaggeration.

Every single TRACKER Mod V model comes factory-rigged with a Mercury® outboard, custom-matched trailer, Lowrance® fishfinder, Minn Kota® trolling motor, aerated livewell, plentiful storage for rods and tackle, folding fishing chairs and more! Most also include the VERSATRACK® accessory-mounting channels, a sleek helm and raised fore and aft decks. So whether you're teaching your kids the joys of catching crappie or reeling your way to the top of the club tournament standings, you'll have quality features at your fingertips the whole way.

SHARED FEATURES

- 1 Rod Storage
- 2 Minn Kota Trolling Motor
- 3 Aerated Livewell
- 4 Lowrance Fishfinder
- 5 Mercury Outboard
- 6 Tackle Storage
- 7 Custom-Matched Trailer

A RIDE SO SMOOTH, IT'S GUARANTEED

TRACKER PRO TEAM™ models take the performance design a step further with the exclusive REVOLUTION™ hull design. These models feature a 16° bow deadrise to cut through the waves, and then a flatter 10° transom angle for planing. This is combined with the POWER-TRAC™ set-back transom, which delivers undisturbed water to the prop to optimize holeshots and top-end performance.

The result is a ride so amazing, we back it with the SMOOTH RIDE GUARANTEE™—if your PRO TEAM doesn't provide the smoothest ride in an aluminum boat, just return it within 30 days for credit toward any TRACKER of equal or greater value.

- THE ONLY PERFORMANCE PROMISE IN THE INDUSTRY -
If your PRO TEAM doesn't provide the smoothest ride in an aluminum boat, return it within 30 days for credit toward any TRACKER of equal or greater value.

TRACKER REVOLUTION HULL

BIG-WATER BEASTS

TRACKER DEEP Vs—TOUGH ON THE FISH, EASY ON THE FAMILY.

Northern anglers rejoice—TRACKER Deep Vs are overbuilt to take on the rough waters you call home.

Like their southern-centric siblings, these models are built following Lean Sigma principles to reduce waste and increase quality. And, they employ such innovative technologies as laser and plasma cutters for ensuring every part is the exact size it should be for proper fit, as well as robotic welding on the transom and stringer for consistency and toughness.

ALL-WELDED CONFIDENCE IN BIG, ROUGH WATER

A 35° angle at the bow cuts through waves and reverse chines deflect water down for a dry, smooth ride in rough water. We use thick aluminum on the hull—.100 gauge or .125 gauge, depending on the model. And unlike some competitors, we use the same thickness in the hull sides as we do the bottom to ensure maximum durability.

DEEP V BOATS GO BIG, NOT HOME

SHARED FEATURES

- 1 Aerated Livewell
- 2 Rod Storage
- 3 Movable Fishing Chairs
- 4 Lowrance Fishfinder
- 5 Minn Kota Trolling Motor
- 6 Custom-Matched Trailer

When the waters get rough, anglers trust the toughest aluminum Deep Vs around to get them to their fishing spot safely and smoothly. And once you're there, TRACKER Deep Vs provide everything you need to reel in a mess of walleye, muskie or whatever other big-water beast you're seeking.

Onboard every model, you'll find a huge aerated livewell to keep your catch healthy, or to keep your live bait. There's also plentiful rod and gear storage (below decks and above) to ensure you can take all the tackle you need and have it ready at a moment's notice.

Rounding out the entire package is a Lowrance® fishfinder, movable fishing chairs, VERSATRACK® accessory-mounting channels and Minn Kota® trolling motor. All riding on a custom-matched, ready-to-roll trailer.

Whether you're headed out for fishing or fun—or both!—TRACKER Deep Vs will keep you safe the entire time.

GRIZZLY TOUGH FOR ALL YOUR ADVENTURES

GRIZZLY JON & UTILITY BOATS

In addition to our Mod V and Deep V lines of boats, we offer a full line of GRIZZLY® jon and utility boats.

Built for hunting, fishing, bowfishing, working or more, these boats are built extra tough to take on whatever conditions you'll encounter. They're so tough, every model is backed by the TRACKER PROMISE™—the best factory warranty in aluminum boats.

If you're interested in these models, you can visit trackerboats.com to view the complete lineup. Or, visit your local dealer to learn more.

VERSATILITY IN YOUR HANDS

VersaTrack

Accessories to make every fishing task faster and easier.

We strive to factory-rig every TRACKER model with the features you need to enjoy a full day of fishing and fun.

But, we recognize that not every angler or family has the same needs, and therefore we offer a number of options to meet your specific situation and locale.

Going to be doing a lot of catfishing? Switch out the carpet for an easy-to-clean vinyl. State requires trailer brakes? We have that. Going fishing with a partner a lot and want to provide them protection from the elements? Check out the port console option. Going to be boating on bigger waters and need a more powerful motor for trolling? Yep, we have a Kicker for you.

MERCURY® KICKER MOTOR

REMOVABLE PORT CONSOLE

VINYL FLOORING

VERSATRACK® channels permit quick mounting and moving of optional accessories.

All the PRO TEAM, Deep V and GRIZZLY models also feature our exclusive VERSATRACK® accessory-mounting channels in the gunnels that allow you to customize your boat even further. With this feature, you can quickly and easily switch out a number of accessories just by tightening or loosening the wing nut! VERSATRACK accessories include rod holders, a cutting board, drink holder, dog ladder and so much more! The best part? You can pick up the accessories you need at your local dealer!

Not all VERSATRACK® accessories fit all models. See dealer for details.

CUTTING BOARD
The cutting board is easy to install or detach and it cleans easily after messy jobs.

TACKLE TRAY
Store tackle trays for easy access to your favorite lures, plus pliers and tools.

3- OR 4- ROD HOLDER
Easily holds rods above deck for quick access when you reach your fishing hole.

ROD HOLDER
Locks down 1 rod for trolling or traveling. Easily adjustable for casting or spinning rods.

DRINK HOLDER
Keep a cold beverage nearby for hydration—or even coffee or hot chocolate on cold mornings.

TOOL HOLDER
Keeps pliers, hook-outs, knives, terminal tackle and more within reach anywhere in the boat.

FREIGHT & PREP

The prices in this brochure are listed "plus freight & prep." Freight charges are the cost of shipping the boat from the factory to the dealer. TRACKER uses zoned freight rates that reflect the costs of shipping boats to each geographic area, or zone, in North America. Prep charges cover the costs the dealer incurs for labor and supplies necessary to complete a pre-delivery inspection and prepare the boat for delivery to the customer. Freight and prep charges are set by the factory and added to the price of boats shown in this brochure and on our websites, based on the dealer location selected by the customer.

Model	Zone 1	Zone 2	Zone 3 (Canada)	Zone 4 (Alaska)	Zone 5	Prep
CLASSIC XL, P170, PT175, PT190, PT195, SGV16	\$650	\$750	\$1,100	\$3,300	\$775	\$375
PGV16, PGV175	\$950	\$1,000	\$1,250	\$4,300	\$1,050	\$375
TV18, TV19	\$1,125	\$1,175	\$1,400	\$5,100	\$1,225	\$375

SAFE TRAVELS OFF THE WATER

WE'VE BEEN BUILDING CUSTOM-MATCHED BOAT TRAILERS FOR MORE THAN 40 YEARS.

Every Mod V, Deep V and GRIZZLY package (excludes Jon boats) comes standard with a factory-matched, custom-built trailer.

Just like the boats riding on them, TRACKER trailers are built extra tough for years of use. Each one features our exclusive GALVASHIELD® Impact corrosion resistance—the pretreated steel tubing and long-lasting powdercoat paint will stand up to corrosion and chipping for a long, long, LONG time.

We also weld—that's right, weld, not bolt—our trailer frames together to create a unitized, heavy-duty structure.

It's a quality so high, we're not afraid to back it with an industry-leading three-year warranty against failure due to corrosion.

3-Year Warranty Protection

Our GALVASHIELD tubing, with its baked-on powdercoat finish, offers industry-leading warranty protection (three years) against failure due to corrosion.

All-Welded Construction

The all-welded construction of our trailers means there are no bolts to loosen over time, maximizing durability. And each trailer is custom built for each boat model, making the fit as impressive as the construction.

Hubs & Brakes

Long-lived, easy-to-lubricate hubs, included on all TRACKER® trailers, keep your ride smooth and your mind at peace, delivering years of reliable performance. Most boat and trailer packages offered by TRACKER Boats are available with brakes as an option. State towing regulations vary regarding vehicle weight rating and requirements for brakes on boat trailers. Check the brake requirements for your state.

Low-Maintenance Hubs

Our hubs make maintenance easy. Just inject grease into the fittings to deliver lubrication to both inner and outer wheel bearings.

Surge Brakes

Most TRACKER trailers are available with optional drum surge brakes that stop quickly and won't engage when backing.

WE HAVE YOU COVERED

CUSTOM-CRAFTED & MATCHED TO YOUR BOAT.

At TRACKER® Boats, we offer a number of cover options to meet your needs to protect you and your boat on or off the water. Choose from mooring covers, Bimini tops and more. Each one is custom-fit to the boat it'll ride on, ensuring a quality cover and protection from the elements for years to come.

MOD V COVERS

DEEP V COVERS

BIMINI TOP

Get out of the sun and into the shade of a custom-matched TRACKER Bimini top. In addition to being long lasting, these tops are easy to put up and pull down.

FRONT CURTAIN

Protect yourself and your passengers from the elements with a curtain. It's roomy enough for easy movement in the cockpit. Available for all WT and Combo models.

FULL ENCLOSURE

For colder climates, the full enclosure provides complete protection from the elements.

@TREEVISION_

A Tracker fishing boat is on a calm lake at sunset. Two people are on board, one sitting and one standing, both fishing. The boat is dark red with "TRACKER" written on the side. A Mercury outboard motor is at the stern. The sun is low on the right, creating a golden glow on the water and sky. Trees with autumn foliage are on the left.

IT'S MORE THAN A BOAT. IT'S A TRACKER.

A boat is simply defined as “a small vessel propelled on water by oars, sails or an engine.”

That definition doesn't quite fit TRACKER to a T, though. These aren't just formed pieces of metal floating on the water.

They're the means to teaching grandkids the joy of fishing. The way to pass on your love for the outdoors and share the importance of conservation to the next generation. The way to get away from the world for a day—or two—of fishing with your buddy or spouse. A way to get the kids to happily put away the electronics to pick up a rod or wakeboard.

It's family and fishing memories that will never fade.

And that's why, it's more than a boat.

It's a TRACKER.
